

January 14, 1985

TO: File

FROM: Pamela Grubaugh-Littig, Reclamation Engineer *pgl*

RE: Texas Gulf, Inc., Cane Creek Mine, ACT/019/015, Grand
and San Juan Counties *005*

I spoke with Bob MacAdams on the telephone January 14, 1985 regarding submittal of the Mining and Reclamation Plan. He said that it may not be until mid-1985 when this will be done. I requested a letter from him stating why he believes there should be a delay. He stated he would. In addition, I spoke with Loren Morton at Water Pollution Control (533-6146) about the reclamation surety. He said he would send me a letter clarifying the meaning of Class III VIC reclamation as well as their regulatory agenda for Texas Gulf.
